

The Windjammer: *extraordinary imaging and bass response*

"The Windjammers ... are my speakers to beat at the price point."

"Integration from top to bottom is exceptional--the sound is woven of a single fabric..."

"The 'Jammers' alluring combination of articulation and tonal completeness ...can enchant the listener."

"Imaging and soundstaging are first rate in the tradition of the best mini-monitors."

"...sound surprisingly deep and vibrant."

"In the highest treble, cymbals and triangles have lovely shimmer without splanthiness... very nice indeed. "

"The sound is full, natural, and seamless."

"The carbon-fiber woofer is a gem..."

"...subtle nuances in articulation and dynamics are communicated masterfully..."

"In keeping with the "lifestyle" theme of Role Audio, the 'Jammers' are a breeze to set up. What a relief from the usually twitchy placement most neurotic 'philes have to contend with."

"there is always a meaty, palpable feel to instruments in the back of an orchestra. "

(Marc Yun, #148, Bound for Sound)

The Windjammer is a transmission line design that is based on the Kayak. Its innovative design and high quality elements allow it to handle demanding music passages and it reproduces the most delicate and nuanced music passages with finesse. It throws a wide, accurate soundstage that envelops you in the emotion of the original performance. Measuring only 5 inches wide by 6.5 inches deep by 39 inches high, the Windjammer is an elegant complement to any decor. Its svelte design allows easy placement to deliver great sound just about anywhere you want it.
